

Personal Protective Equipment Catalogue

Ckdpack: A global presence

Ckdpack: During the COVID-19 Pandemic

- Due to the immediate need of PPE products during the COVID-19 pandemic, Ckdpack has committed to manufacturing and supplying PPE equipment in five of our global locations
- As a global company, we have resources to source PPE products from China, India, Turkey and other manufacturing locations
- We have already supplied mass orders of equipment to the Government of Ontario and donated over 2000 products to local charities and community members
- Now, we are focused on supplying to local businesses to help resume their business operations safely for their employees and customers
